

Baby's First Year Plans

As part of the two plans, your baby can be photographed in our studio, at your home, or other Coastal setting.* At the end of completing the final sitting you will qualify for a complimentary gift. We set aside an hour for each session and up to two different clothing changes and settings may be used. Our relaxed sessions aren't rushed, so there's plenty of time to change and feed your baby, or just give her a break. For your use, our comfortable studio has a private nursing room, changing table and kitchen. We now have two plans to choose from, so take your pick!
